

Vial of Life

The vial of Life could perhaps be the most important document you have in your possession. The Vial of Life is recognized by the first responder of every Fire Department in the country.

Each Vile of Life contains:

- 2 Vial of Life forms (1 for each resident)
- 2 Red Vial of Life stickers
- 1 Instruction Sheet
- 1 Plastic Bag

The Vial of Life form asks for specific medications, illnesses, Doctors, Emergency Contacts or next of kin. It is recommended that you put this form on your computer for updates as they occur.

Place one of the red stickers on the plastic bag which needs to be attached to the side of your refrigerator. As an option, you can use a large empty medicine vial or small jar and place it on the top shelf of the refrigerator door.

Place the second red sticker somewhere on your front door. The sticker immediately alerts the first responder that you have a Vial of Life and they will know where to find it.

You may request a new pack or medical information sheet from the Front Desk of Bradford Hall should your medications change at any time.
